2. Summary of the Principal Business or Leading Products during the Reporting Period

(1) Principal Business and Operation Model

FIYTA is engaged in main business of watch brand management and brand watch retails. In respect of the technological nature, it belongs to precision technology industry. Depending on its accumulated technology and industrial advantages in the high-end precision technology field, the Company is also actively exploring business growth opportunities in new fields such as precision technology and smart watches.

(2) Development Status of the Industry and the Company's Position Therein

Watches bear both characteristics of precision technology and fashion: high-end watchmaking is supported by precision technology, material technology and craftsmanship as the core. In addition, it is necessary to meet consumers' demands for brands, aesthetics and artistic and cultural connotation. The global watch industry has developed for more than two hundred years, and it has a long history. Technological innovation and design creativity have always pushed the brand forward.

Globally, the high-end luxury watch market is mainly controlled by the Swiss watch brands, which are mainly concentrated in brand groups such as Swatch, Richemont, LVMH and Kering. In addition, independent brands such as Patek, Philippe and Rolex also have great influence. In the medium and low end market, it is mainly composed of partial Swiss watch brands, Japanese brands, fashion brands and home-made brands, with fashion style and classic style as the main direction. In recent years, smart watches have developed rapidly, and have won the favor of tech-savvy and sports-savvy citizens.

According to the "China Luxury Consumption Report 2019" released by McKinsey China, Chinese's luxury consumption last year at home and abroad reached CNY 770 billion, accounting for one-third of global luxury consumption. From 2012 to 2018, more than a half of the growth in the global luxury market came from China. Based on the Swiss export market statistics, Mainland China ranked the third; Hong Kong has ranked the first for a long time, which shows that Chinese people still mainly consume foreign-made watches, and the domestic market has great potential for growth. According to an estimate made by the Chinese Academy of Industry Economy Research, the home-made watch market size is about CNY 70 billion.

The Brand "FIYTA" is one of China's most well-known watch brands that have grown up under the market economy after China's reform and opening-up, and its sales scale has always been at the forefront of the market. The Company has always practiced the original intention of building an international watch brand, relying on the precision manufacture technology, brand influence and channel deep ploughing in the aviation industry, and continued to innovate and breakthrough. The Brand "FIYTA" is one of the world's three major space watch brands. In 2017, the brand was selected in the "Made in China" brand plan by the Ministry of Commerce; "FIYTA won the "China Grand Awards for Industry" in 2018, and was honorably put on the "70 Top Brands for the 70th Anniversary of the Founding of New China" list in 2019.

At the same time, the Company introduced Swiss watches to the domestic market earlier, and met the diversified demands of consumers for watch brands through the HARMONY watch retail business channel. After more than two decades' development, Harmony World Watches has been operating brand watch retail business in more than 60 cities across the country and has nearly 200 chain stores. It has established abundant brand resources and good operating ability, and its market share ranks domestically forefront in the watch retail industry.
